

TEOXANE

WHAT IS HYALURONIC ACID?

In our skin, Hyaluronic Acid (HA) is already present in large quantities. It has a significant ability to attract and bind water molecules, HA is important for maintaining structure and volume in the skin.¹³ HA dermal fillers are one of the most popular anti-ageing injectable treatments available to address age-related changes in skin quality and appearance. They have replaced collagen as the ingredient of choice for skin rejuvenation and volume restoration.

WHAT WILL HAPPEN DURING THE TREATMENT?

Your Healthcare Professional will assess the area requiring a treatment with HA. Injection is administrated with a sterile, single-use syringe.¹⁴

HOW MANY TREATMENTS WILL I NEED AND HOW LONG DOES IT LAST?

Immediate results can usually be seen after just one visit. Occasionally, a touch-up injection may be needed within one month after your first session. Results may vary from one person to another, the mean duration is 9 to 12 months.⁸

CAN I GO STRAIGHT BACK TO WORK AFTER A SESSION?

As with all hyaluronic acid-based products, TEOSYAL® gels may have side effects. These reactions are most often temporary and common. In case of dissatisfaction with the expected aesthetic result or side effects following treatment with TEOSYAL® injectables, you should immediately contact your injector.

AND WHAT CAN I TREAT WITH HA GELS?

By boosting our supply of hyaluronic acid, HA dermal fillers refresh and plump our skin by filling facial volumes lost with ageing, diminishing the appearance of lines and wrinkles, and giving a natural softer look.

These soft, crystal-clear gels can be injected beneath or within our skin to boost its supply of HA.¹⁴

Modification of aged skin:¹⁵

- Restoration of **volumes**
- Filling of **skin depression** and **wrinkles**.
- Restoration of **skin hydration**

ABOUT FILLER INJECTIONS

“

In today's world, beauty is no longer a question of age. Women want their beauty to last into the future.

That's why TEOXANE Laboratories specialise in the complex development of hyaluronic acid injectable gels with researchers driven by the culture of excellence and innovation as well as a total dedication to effectiveness and safety. Thanks to this approach, the hyaluronic acid gels we produce in our Geneva-based laboratories are of the highest quality and purity. ”

TEOSYAL® PureSense Redensity 2 is trademark of the firm TEOXANE SA. This product is gel that contains hyaluronic acid, and 0.3% by weight of lidocaine hydrochloride (local anesthetic can induce a positive reaction to anti-doping tests). In the case of known hypersensitivity to lidocaine and/or amide local anaesthetic agents, we recommend not use lidocaine-containing products and please refer to products without lidocaine. TEOSYAL® PureSense Redensity 2 is class III medical device and is regulated health product bearing the CE marking (CE2797) under this regulation. For professional use only. Please refer to instructions for use. Although the safety of TEOSYAL® products is well-established, adverse events can occur, please consult your physician or pharmacist for more information and/or refer to instructions for use. The product availability depends on registration, please contact your local distributor. Please inform the manufacturer TEOXANE of any side effects or any complaint as soon as possible to the following address: medical@teoxane.com.

THE EXCELLENCE OF SWISS SCIENCE

A BRIGHTER, FRESHER LOOK

Reduce under eye hollows

Hyaluronic acid, a naturally occurring substance in our skin that gives it **volume** and **elasticity**, begins to diminish as we age.¹ The eyelid skin is the thinnest in the body,² making it susceptible to **under eye hollows, dark circles, fine lines** and **wrinkles**, all of which are aggravated by daily facial movements, genetic factors, lifestyle and the environment.³

A major concern among 56% of women over 30,⁴ under eye hollows can be softened using TEOXANE's TEOSYAL® PureSense Redensity 2 formula, helping you to achieve **natural-looking results**.⁵

Two Products, fuelled by Hyaluronic Acid

TEOXANE's Redensity 2* hyaluronic acid injection in-clinic to correct your under eye hollows.^{5,6} It can be used in conjunction with R[II] Eyes to maintain treatment at home. R[II] Eyes will give you **immediate smoothing & brightening effect** for your tired eyes to look **younger and fresher**.⁷ It's time to light up your look.

*TEOSYAL® PureSense Redensity 2

LIGHT UP YOUR LOOK

See results after just one treatment⁵

Redensity 2 is the first and only hyaluronic acid injectable specifically formulated for the delicate under eye area.⁵ This innovative treatment is a combination of cross-linked and non-cross-linked HA of non-animal origin that together smooth and fill under eye hollows and tear troughs.^{5,6}

Immediate, Natural and Long-lasting results^{5,8}

Visible immediately, results are long-lasting.⁸ With nearly a decade of expertise, proven patient satisfaction over the years⁹ and millions of injections¹⁰ administered in over 90 countries, Teoxane brings you the benefits of the best of Swiss science.

Ask your healthcare professional
if dermal fillers are right for you.

AT HOME CARE

R[II] Eyes to improve under eye discoloration

To fully enjoy the results of Redensity 2, apply Teoxane's complementary product, **R[II] Eyes**, at home to **treat dark circles**.¹¹

70% of women noticed brighter skin after 28 days of use⁷

R[II] Eyes uses a unique combination of key ingredients specifically designed for the eye-contour area:

- Escin and Hamamelis extracts provide a **fresh and decongesting effect**.¹²
- RHA Resilient Hyaluronic Acid® maintains and **protects skin hydration lastingly**.¹²
